CHIC RETREATS

Discover Danish design By Roxane Gergaud - 25th April 2018

Known for its clean, simple lines and timelessness Danish design is recognised and replicated the world over. Head to the Design Museum to get to grips with Denmark's greats from Arne Jacobsen to Jacob Jensen and Kaare Klint with a vast range of pieces now housed in the 18th-century Frederiks Hospital.

You can also enjoy a full design experience closer to home, with a stay at Hotel Alexandra. General Manager Jeppe Mühlhausen's passion for Danish design is palpable throughout with an impressive collection of mid-century furniture and some rooms inspired by specific designers including Finn Juhl, Nanna Ditzel and Hans J. Wegner. Confident in the quality and durability of the pieces, guests can enjoy using, sitting in and generally admiring the real deal with many pieces also for sale if you fancy taking some of that design home.
